### WEEKLY CITIZEN.

S. IURDAY, DECEMBER 15, 1888. The Citizen Printing & Particular of HERBERT BEOWN,

TERMS FOR THE DAILY:

OFFICE: Corner Congress and Church Streets

& Maiden Lane and Church Street.

CH APER RAILBOAD IRANSPORTA TION WANTED.

OPP RTUNITIES for towns are usually slow in coming, but when once billed should be worked for all they are worth For the past decade the people of Tucson have cried aloud for a plant of sufficient capacity to reduce the large bodies of low grade ores that are to be found on almost every hill and bollow in southern and middle Arizons. They have worked and planned and subscribed money, but to no purpose, for with the sole exception of penniless adventurers who bailt smelters on paper and sought to profit at the expense of the town, no one could ever be indused to give the subject serious consideration. The questions involved were reduced to two, viz., the supply of ore, and railroad transportation. Until the latter had been disposed of it was useless to enquire into the first, and as the high rates of transportation stood an impassable barrier to the shipment of low grade ores, investigation went no further and the longed for plant failed to materialize.

R. H. Paul tried to bridge the gap be tween realization and expectancy, and with the aid of citizens succeeded in removing the old Columbia smelter to this place, but as neither he nor they had the wherewith at their disposal to purchase ores nothing further could be or was done in the premises.

The opportunity has at length arrived.

It is backed by large capital so that noyou would secure and retain home pathe last month, but it is my experience thing in the shape of money will be tronage patronize home yourselves. If that very few people will know who conwanting to achieve success. As stated your newspaper man charges you a lit- trols the road until the books are closed. in the Cirizen yesterday, Mr. Gent the more for your printing than you proprietor of the Pueblo Smelting works would pay outside, don't grumble, but states that the none cannot longer provantages offered by Tueson for the profitable reduction of ores. He will be away for them. Please bear this in was desided to allow fitable reduction of ores. gin with the Paul Smelter, a plant of 30 mind and set the exemple you would liberty of action. tons capacity, and will add thereto, as have others follow. So far as lithograhe did at Pueblo, as occasion requires phic work is concerned we are out of the Senior Orispie said war with France was If a 30 ton plant will not meet the requir ment, perhaps a 60 or 120 ton will It is not, however, claimed that the mine contiguous to Tooson can keep a plant of profitable capacity in continuous or eration and other avernes of supply must therefore be opened up, but o these there are no end, if lower rates of railroad transportation can be secured.

Notwithstanding that southern and middle Arizona is ribbed and seamed with undeveloped mineral wealth, it is pevertheless conceded that the ores are not of sufficently high grade to be madprofi ab e. either to the producer or redue r, and pay the present schedule freight rates. We trust therefore that wive the territory a special rate on this

line of the Southern Pacific, between E!

the ores will not bear such lengthy transportation it must of necessity be reduced wherever found. But the present railroad tariff precludes even that an less induced to give requisite rate that will put lie school. allow miners a compensating margin on the products of their labor,

We therefere urge upon the press of the territory to place the matter properly before the Company and induce them if possible, for the benefit of all concerned, to lower the rates in question. We make this appeal direct on behalf of a long suffering people and trust that at will not pass unbeeded.

WE would like to ask by what authorthe Trustees of the Tucson Public Schools, award the printing of a sixty page pamphlet to any one party without calling for competition bids. This is public work and the public purse should be considered. Only this and

PROPLE that withdraw their adverthen hope to get themselves before the sectional feelings or personal pique. public by means of dodgers printed in San Francisco, can hardly hope to receive home patronage.

The city election to-day provoked an The city election to-day provoked as unusual smount of interest and the friends of the various candidates worked with unflaging energy from the opening of with unflaging energy from the opening of which it evidently is a continuaing to the closing of the polls. The ir- tion. It is unquestionably one of the but probably no action will be taken updications are that a larger vote will be best claims in the country, and should on them by the Committee.

THE CITIZEN, with its accustomed modesty, does not ask the a Cabinet position for the territory, but it does want a good m p for governor.
